EXPERIENCE

BizIQ | Front End Web Developer / Designer February 2019 - Present | Phoenix, AZ

Designs new clients site from start to finish using front end technologies such as HTML, CSS, and JavaScript. Uses responsive design techniques and progressive enhancement in a mobile-first approach. Optimizes CSS/HTML/ Javascript for rapid page load. Completes tasks in a rapid development production environment. Works with Cross-browser compatibility including Explorer 8, Firefox, Chrome, Safari, and major tablet/mobile browsers.

Clyint | Junior Designer November 2017 - January 2018 | Phoenix, AZ

Worked with a variety of clients on websites, social media, packaging and print. Created layouts, email blasts and manipulated typography. Contributed to marketing ideas and strategized new innovative concepts. Developed branding research skills. Gained hands on design and front-end web experience.

Insight | Front-End Web Intern February 2017 - November 2017 | Tempe, AZ

Created webinar/landing pages for influential companies. Worked with W3C web standard, edited pages on content management systems. Aided in the design of original graphics and revised web forms. Mocked up landing pages and redirected current functioning pages.
